

MASTER ENGINEERING / PLANNING STUDIES & FEASIBILITIES

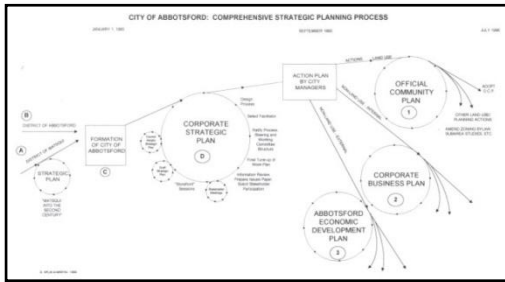

Aplin & Martin Consultants Ltd. provides teams of planners and engineers to tackle complex development, land use and engineering serviceability assignments. Working closely with municipal and private clients, as well as outside stakeholders and the general public, Aplin & Martin has been at the forefront of sustainable land use planning, clustering, and servicing for many years. Services include stakeholder meetings, discussion forums, public open houses, information meetings, presentations to staff and council, and a work program tailored to meet project-specific needs
